

Detail-oriented and highly motivated Computer Science student at Alma Ata University Yogyakarta, with a keen interest in technology, especially Web Programming, UI/UX Design, and Graphic Design. Strongly disciplined, with a strong desire to work hard, and willing to learn new things. Experienced and skilled in several modern technologies, including PHP, CSS, JavaScript, Figma, Corel, and MS Office. I have successfully applied my experience in various projects, working both as part of a team and independently, to develop static and dynamic websites, cloud computing solutions, and Windows applications.
